### Summary

---

Third year, Computer Science student and full stack developer with hands-on experience building and deploying applications. Skilled in both Front-end and Back-end technologies, a solid foundation in data structures and algorithms and a commitment to writing clear, maintainable code. Seeking an internship where I can apply and contribute my skills to real-world impactful projects, learn from experienced professionals and continue growing as a software engineer.

### Education

---

#### ISBAT University

Lugogo Bypass, Uganda

*Bachelor's of Science in Computer Science*

*Expected Graduation, Dec 2026*

- **Concentration:** Software Engineering.
- **Related Coursework:** Software Engineering Professional Practices, Web and Mobile Development, Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Operating Systems, Cybersecurity, Computer Architecture, Data Science.

#### Uganda Advanced Certificate of Education (UACE)

**2019 - 2022**

*London College of St. Lawrence, Maya*

#### Uganda Certificate of Education (UCE)

**2016 - 2018**

*St. Lawrence Schools and College, Paris Palais*

#### Primary Leaving Examination (PLE)

**Finished 2015**

*Greenhill Academy Primary School, Kibuli*

### Projects

---

#### 1. QuickMeds

Link: [quickmedsuganda.vercel.app](https://quickmedsuganda.vercel.app)

**Technologies:** Python, Django, PostgreSQL, Next.js, TypeScript.

Built a full-stack, end-to-end pharmacy system for inventory, sales, medicine and supplier management. Implemented role-based authentication, real-time stock tracking, expiry alerts, POS functionality, and an analytics dashboard for revenue and operations.

#### 2. ISBAT GPA Calculator

Link: [isbat-gpa-calculator.vercel.app](https://isbat-gpa-calculator.vercel.app)

**Technologies:** Next.js, TypeScript, Tailwind CSS.

A simple and lightweight GPA calculator built for ISBAT University students to compute their semester GPA and CGPA easily. Functionality includes dynamic calculations based on user input and allows students to download their calculated results for future reference, with a clean and responsive interface for quick academic use.

#### 3. Brueilex Group

Link: [brueilexgroup.com](https://brueilexgroup.com)

**Technologies:** Next.js, TypeScript, Tailwind CSS.

A corporate website showcasing Brueilex Group's water and energy solutions, including irrigation systems, solar energy, boreholes, generators, and water pumping services. The site was designed to present the company's focus on efficiency, sustainability, and reliability, while also integrating a contact system using Nodemailer for client inquiries and service requests.

#### 4. Personal Portfolio

Link: [simonddungu-portfolio.vercel.app](https://simonddungu-portfolio.vercel.app)

**Technologies:** Next.js, TypeScript, Tailwind CSS.

A personal website showcasing my projects, documenting what I'm learning, and sharing a bit about who I am, my interests in software development, and the direction I want to take in tech. Built to serve as a central place for my work, learning progress, and technical growth over time.

#### 5. Vinniq Media

Link: [vinniqmedia.com](https://vinniqmedia.com)

**Technologies:** Next.js, TypeScript, Tailwind CSS.

A website for a media company offering photography and videography services for portraits, events, and productions. Built to showcase their portfolio and services, with a contact system to handle client bookings and inquiries.

#### 6. AgriX

Link: [agrixfarm.com](https://agrixfarm.com)

**Technologies:** Next.js, TypeScript, Tailwind CSS.

Built the Agrix website to support their agricultural platform that helps farmers sell crops, buy inputs, access farming tips, and check weather updates through the AgriX mobile application. The site presents the AgriX's features and value proposition in a simple interface designed for farmers and general users.

#### Technical Skills

---

**Programming Languages:** TypeScript /JavaScript, Python, C#, Java, PHP

**Front End Technologies:** React, Next.js, Tailwind CSS

**Back End Technologies:** Node.js, Django, ASP.NET Core

**Databases:** PostgreSQL, SQLite, MongoDB, MySQL, MS SQL Server

**Tools:** Git, GitHub, Postman, Ngrok

**OS:** Ubuntu Linux, Windows

**Other:** RESTful APIs, Responsive Design, Search Engine Optimization, Version Control

#### Soft Skills

---

- |                   |                       |
|-------------------|-----------------------|
| ▪ Problem-solving | ▪ Attention to detail |
| ▪ Fast learner    | ▪ Self-driven         |
| ▪ Teamwork        |                       |
